CAREER OBJECTIVE

Aspiring to work as a Front-End React Developer in a progressive organization where I can contribute to developing interactive web interfaces using React, and further sharpen my problem-solving and development skills.

WORK EXPERIENCE

Booking And Pick-Up Incharge   May 2023 - Dec 2024
RMK EXPRESS, Salem

- Managed courier pickup and booking operations, ensuring accuracy in shipment handling. Sorted and packaged couriers based on district-wise distribution for timely delivery.
- Coordinated with logistics teams for smooth handover and shipment tracking. Trained and supervised new pickup workers, improving team efficiency. Planned and allocated pickup schedules and resources, ensuring on-time execution.

Career Transition:
This role strengthened my attention to detail, problem-solving, teamwork, and leadership skills — which I now apply in my career as a Front-End Developer, building efficient, responsive, and user-friendly web applications.

EDUCATION

Bachelor of Computer Applications (BCA), Computer Application   2020 - 2023
Vysya College

TRAININGS / CERTIFICATIONS

Full Stack Development With DSA
May 2025 - Sep 2025

Internshala Training, Virtual

Full Stack Web Development with DSA – Internshala Completed a comprehensive course covering HTML, CSS, JavaScript, React, Node.js, Express, MongoDB, Git/GitHub, and Data Structures & Algorithms. Built multiple projects (E-commerce, Food Delivery, Netflix-GPT, Weather App) while strengthening problem-solving and full-stack development skills.

Namaste React
Dec 2024 - Mar 2025

NamasteDev, Virtual

React.JS Course – NamasteDev.com

Comprehensive React.js course by Akshay Saini, covering components, JSX, Hooks, API integration, and performance optimization. Focused on building scalable applications with best practices and development workflow.

PORTFOLIO

PROJECTS

ShoppyGlobe E-commerce Application ↗
Jul 2025 - Aug 2025

ShoppyGlobe – E-commerce Platform

- Developed a fully functional e-commerce platform with product browsing, cart management, and checkout.
- Built a responsive, user-friendly UI using React and React Router for smooth navigation.
- Implemented Redux for efficient cart and global state management.
- Integrated APIs to fetch real-time product data and improve performance.
- Optimized the app for speed, responsiveness, and cross-device accessibility.

Tech Stack: React, Redux, React Router, API Integration, CSS

Weather Forecast Application ↗
Jul 2025

Weather Forecast Application

- Developed a real-time weather application with a clean, user-friendly interface.
- Implemented asynchronous API requests to fetch live weather data and forecasts.
- Dynamically updated the DOM to display current conditions and future forecasts.
- Designed the app with responsive UI for seamless use across devices.
- Utilized JavaScript for efficient data handling and interactive features.

Tech Stack: JavaScript, Weather API, HTML, CSS

NETFLIXGPT ↗

Feb 2025 - Mar 2025

Netflix-GPT

- Built an AI-powered movie recommendation platform using React, Redux Toolkit, Firebase, and OpenAI API.
- Mimicked the Netflix browsing experience with AI-based search & movie suggestions.
- Integrated Firebase authentication for secure user login and session management.
- Managed global state efficiently with Redux Toolkit.
- Designed a responsive, modern UI using TailwindCSS.
- Implemented dynamic routing with React Router 7.
- Optimized performance using lazy loading and React Suspense.
- Developed modular components like GptMovieSuggestions, GptSearch, and Browse.

Tech Stack: React, Redux Toolkit, Firebase, OpenAI API, React Router 7, TailwindCSS, Jest.

FoodMall – A React-Based Food Ordering App. ↗

Dec 2024 - Feb 2025

Food-Mall – Food Delivery App

- Built a responsive food delivery application with a scalable, component-based architecture in React.js.
- Implemented dynamic restaurant listings, search functionality, and interactive UI elements.
- Utilized Parcel for bundling, caching, image optimization, HMR, and code splitting for performance.
- Integrated RESTful APIs to fetch and display real-time restaurant data.
- Managed state efficiently using React Hooks.
- Ensured reliability with unit testing using Jest and React Testing Library.

Tech Stack: React.js, React Hooks, Parcel, RESTful APIs, Jest, React Testing Library

SKILLS

- HTML 5
- Bootstrap
- Jest
- Ubuntu
- Vercel
- Backend development
- CSS3
- JavaScript
- Frontend development
- Linux
- Data Structures
- Tailwind CSS
- React
- GitHub
- Firebase
- Web development
